Dear President

AAPAM

Macau

PLEASE SUPPORT THE CLOSING OF THE CANÍDROME!

Dear President,

Anima has reported to us that they have requested you, for four times, AAPAM's support for the greyhounds campaign with no answer at all.

As participants in this International Roundtable on Greyhounds, we can not understand the reasons why there is not a firm commitment of your organization on this issue.

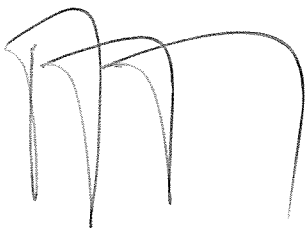

The Canidrome is now infamous, known as the cruelest greyhound track in existence. Every month, thirty greyhounds are needlessly killed, and replaced by new shipments of racing dogs from Australia.

We are all Animal Welfare Organizations that care about the rights of these animals and the quality of life of the Macau community. We are aware that the land used by the Canidrome needs to be redeveloped by the Macau Government to satisfy the needs of a community that lives in the most density area of the world.

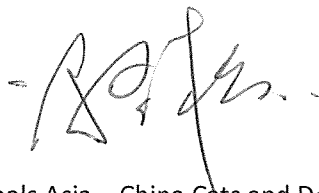

The current cycle of suffering and death that is happening at the Canidrome goes against our shared values. It is also an affront to Macau's proud history. So we urge your strong support to the closing of the Canidrome!

We are counting on you.

Yours sincerely
